

## Light Vehicle Maintenance Level 3

This course is designed for 19+ adults.

You may be eligible to study for free if you are aged 24+ and this is your first full Level 3 qualification.

Our Motor Vehicle Engineering course is designed to provide you with the knowledge and skills to access the Motor Vehicle Industry. Once you have completed your hands-on mechanics training, you will be industry ready.

Throughout the course you will be trained and assessed to achieve an IMI qualification. You will also receive training which reflects the reality of the industry and will provide you with a comprehensive understanding of the skills and knowledge required to progress your career.

The course is scheduled over 3 days per week and will be a mixture of theory and practical across the year.

### Progression opportunities

Your progression from this qualification will be either of the below pathways:

- Employment – This qualification will give you the skills required to gain employment.
- University – You will be able to increase your skills through a specialist higher education course.

### Entry Requirements

The entry requirements for this course are:

- Must hold a level 2 Diploma in Vehicle Maintenance and Repair

### What will I study?

You will be trained and assessed across the following areas:

- Health and safety / tool identification
- Diesel and petrol engines
- Electrical systems
- Engine cooling and lubrication systems
- Suspension and chassis
