

AAT Accounting Level 3 (Day)

The AAT Accounting Level 3 (Day) qualification will allow you to pursue a career in finance and accounting.

You may have completed the Foundation Certificate in Accounting, be currently working in the financial sector or looking to re-train and develop your accounting skills.

This course will introduce you to more complex accounting tasks such as maintaining cost accounting records and the preparation of reports and returns.

AAT qualifications are internationally recognised and offer assurance to employers that you have the specialist skills they are looking for.

- [Sector Overview](#)

The Accounting and Finance sector plays a critical role in the global economy by providing essential financial management services to businesses, organisations and individuals.

The sector encompasses a wide range of activities, including financial planning, analysis, reporting, auditing, taxation, and risk management. It serves as the backbone of decision-making processes and ensures the efficient allocation and utilisation of financial resources.

The UK's financial services industry has faced many challenges over the past few years, but it has met them head on. Accountants, and the accounting functions, are the backbone of any business and, as such, roles in finance are applicable to every industry.
