

Technical Digital Technology (Digital Applications) Level 2

This course is designed for 16-19 learners.

This qualification will allow you to develop the skills, knowledge and behaviours expected by employers in the Information Technology sector.

Through theory, practical sessions and work-related activities, you will gain invaluable IT skills including:

- Creating digital multichannel applications
- Understanding IT network features and functions, common practices in network security, and the function and features of the main network appliances
- IT service solutions and the issues encountered in IT solutions in an organisation
- Setting up new equipment and upgrading existing systems
- Providing digital content for organisations

You will also cover broader skills in literacy and numeracy, which will help you to progress.

Progression opportunities

This course will lead to:

- Employment
- BTEC Level 3 in IT
- Level 3 Digital apprenticeship
- T Level in Digital Production, Design and Development

Entry Requirements

The entry requirements for this course are:

- 4 GCSEs at Grade 3 (D) or above including English and maths

You will be required to attend an informal interview which may include completing an assessment based on your prior qualifications.
