

Electrical Installations Level 2

This course is designed for 19+ year olds.

The Diploma in Electrical Installations (Buildings and Structures) (QCF) Level 2 qualification will allow you to develop your skills further in electrical installation.

This course ideal if you would like to eventually secure work on a site carrying out 1st and 2nd fix domestic electrical work or if you are currently working and can only commit to one day a week at college.

Course fee: £1,463. You may be eligible to study this course for free or access [financial support](#).

Progression opportunities

This course will lead to:

- Electrical Installation, Level 3 course, provided the entry requirements are met.
- Alternatively, you could seek employment as an Electricians mate or a mature apprenticeship.

There is a skills shortage currently which has shown a sharp growth in apprenticeship opportunities. Speak to a member of the team for further information.

Entry Requirements

The entry requirements for this course are:

- 4 GCSEs at Grade D (3) or above including English and Maths at least Grade C (4) or above/equivalent
- Progression from a Level 1 Diploma in Electrical Installation

You will be required to attend an informal interview which may include completing an assessment based on your prior qualifications

What will I study?

This course consists of the following modules:

- Health and safety / tool identification
- Carry out safe working practices

Disclaimer:

Every effort has been made to ensure the details contained in this leaflet are up-to-date and accurate at the time of printing. However, the College reserves the right to alter or cancel courses, their content, entry requirements, fees or other details should circumstances dictate.

- The theory of electrical installation including: The science that makes electricity; the technology behind how it is generated, transmitted, distributed and installed; renewable energy
- You will also learn the practical skills needed for electrical installation. This will include containment systems, various wiring systems, the installation of accessories, switch gear and machinery

How will I be assessed?

Your course will be assessed via:

- Observation of your practical work by a Qualified Assessor
- Your industry knowledge will be assessed by short question papers, which will take place throughout your programme of study
- In addition to this you will be required to pass four multiple-choice external online examinations
- Your Personal Tutor will prepare and support you for all assessments and online exams
