

Electrical Installations Diploma Level 2

This course is designed for persons 19+ adults. This qualification will allow you to develop your skills further in Electrical Installation. This course ideal if you would like to eventually secure work on a site carrying out 1st and 2nd Fix domestic Electrical work or if you are currently working and can only commit to one day a week at college.

Progression opportunities

This course will lead you to Electrical Installation Level 3 course, provided the entry requirements are met. Alternatively, you could seek employment as an Electricians mate or a mature apprenticeship. There is a skills shortage currently which has shown a sharp growth in apprenticeship opportunities. Speak to a member of the team for further information.

Entry Requirements

The entry requirements for this course are:

- * 4 GCSEs at Grade D(3) or above including English and Maths at least Grade C(4) or above/equivalent
- * Progression from a Level 1 Diploma in Electrical Installation
- * You will be required to attend an informal interview which may include completing an assessment based on your prior qualifications

What will I study?

This course consists of the following modules:

- * Health and safety / tool identification
- * Carry out safe working practices
- * The Theory of Electrical Installation including: The science that makes electricity; the technology behind how it is generated, transmitted, distributed and installed; renewable energy
- * You will also learn the practical skills needed for electrical installation. This will include containment systems, various wiring systems, the installation of accessories, switch gear and machinery

How will I be assessed?

Your course will be assessed via:

- * Observation of your practical work by a Qualified Assessor
- * Your industry knowledge will be assessed by short question papers, which will take place throughout your programme
