

# Certificate in Performing Engineering Operations Level 1

This course is designed for persons aged 16+. This qualification will give you an introduction to Mechanical and Electronic Engineering.

## Entry Requirements

The entry requirements for this course are:

- 4 GCSEs at Grade 1 (G) or above including English and Maths
- Interview and assessment

## What will I study?

This course consists of the following modules:

- Working Safely in an Engineering Environment
- Carry out Engineering Activities Efficiently and Effectively
- Using and Communicating Technical Information
- Carry out Routine Servicing of Mechanical Equipment
- Carry out Routine Servicing of Electrical and Electronic Equipment

## How will I be assessed?

Your course will be assessed via:

### Disclaimer:

Every effort has been made to ensure the details contained in this leaflet are up-to-date and accurate at the time of printing. However, the College reserves the right to alter or cancel courses, their content, entry requirements, fees or other details should circumstances dictate.

- Observation of your practical work by a qualified assessor
- Your industry knowledge will be assessed by short question papers, which will take place throughout your programme of study

## Progression opportunities

This course will lead you to progression on to a level 2 course in engineering maintenance or design to further develop your skills in preparation for an apprenticeship.
