

# Access to HE: Nursing and Midwifery Level 3 - February start

Access to Higher Education: Nursing and Midwifery Level 3 is designed to provide aspiring nurses and midwives a route into nursing or midwifery degrees.

The course content focuses on the core knowledge and skills you need to successfully progress to study at degree level in your chosen subject.

The teaching and learning methods will give you opportunities to develop transferable skills including:

- Teamwork
- Problem solving
- Thinking and independent study skills

The course will be conducted over 2-3 days and have teaching of 11 hours a week over the 31 weeks - the course will run from February 2024 until December 2024.

- [Sector Overview](#)

The largest employer in the UK Healthcare Sector is the NHS, which employs more than 1.5 million people - placing it in the top five largest workforces in the world. There are more than 350 different roles available within the NHS.

A significant proportion of the sector's workforce is in independent healthcare. In addition to their private sector functions, these providers are increasingly contracted to provide services on behalf of the NHS.

- [Entry Requirements](#)

The entry requirements for this course are:

- GCSE maths and English at Grade 4 (C) or above, or Level 2 Functional Skills in English or maths
- Interview and assessment

In addition to your Access programme, for those who have not yet achieved a Level 2 in both subjects, you will be required to enrol onto an adult English or maths Level 2 qualification in the specified subject to support your progression onto higher level study.

It is important to note that all students progressing onto university will need to have achieved a Level 2 qualifications in both English and maths, as well as their main qualification.

- [What will I study?](#)

This course consists of some of the following modules:

- Human anatomy and physiology
- Introduction to healthcare
- Safeguarding children, young people and/or vulnerable adults
- Care principles
- An introduction to health and disease
