

Digital Production / Design & Development T Level Level 3

Digital Production / Design & Development T Level Level 3 is designed for learners who aspire to work in the Software Production or Digital Industries.

You can progress into roles such as:

- Web developer
- Web designer
- Software developer technician
- Computer games developer
- Application developer
- Programmer
- Automated test developer
- Mobile app developer
- User experience (UX) designer
- Computer games tester
- Programming (Python, HTML, CSS, PHP, Javascript and more)
- And many more

Waltham Forest College is putting sustainability at the heart of everything that we do, and in this course, you will be made aware of practices that supports pollution prevention, ecosystem management and environmental protection. There will be an emphasis on the use, handling and storage of digital equipment and ensuring businesses use efficient technology systems to reduce their carbon footprint. All course work is digitally submitted and tutors' feedback electronically, reducing the amount of printing and paper being used.

The course is scheduled over 3 days per week and will be a mixture of theory and practical lessons.

- [Sector Overview](#)

In today's rapidly evolving digital landscape, IT plays a pivotal role in driving innovation, efficiency, and success across various industries.

In 2023 the UK tech sector was valued to have a combined market value of \$1 trillion, the third country to reach the milestone. This makes the UK, and London in particular, a great place to start your digital career. At Waltham Forest College, we offer a comprehensive range of digital information technology courses that provide students with the knowledge and skills needed to excel in this dynamic field.

- [Entry Requirements](#)

The entry requirements for this course are:

- 5 GCSEs at Grade 4 (C) or above, or equivalent, including English, maths and one humanities/computer
