

Waltham Forest College - Public Value Statement

Waltham Forest College aims to be a strong, dynamic and responsive College and our key focus is on students and local employers.

The College is committed to providing a broad and inclusive curriculum to meet the needs, demands and ambitions of our community and offers an extensive range of learning to maximise the skills and knowledge of students with the potential for excellent outcomes.

The College values every educational aim of every student equally and seeks to raise the aspirations of its students and staff so that each may make the maximum contribution to the community.

The College will seek to develop all of our students' personal and professional skills with education and training which will equip them for future progression and success, so they may, in turn, benefit their communities and the local economy.

The intention is to deliver courses and services which maximise the impact for the investment from the resources available.

Economically, the College supports local businesses. It engages with local employers to meet the needs of businesses and non-commercial partners.

Waltham Forest College seeks to enhance the social, economic and physical wellbeing of the community it serves through the delivery of our strategic objectives.
